RELEVENT PROJECTS

Modesty Habitat Website

- Modesty Habitat is a modern e-commerce platform designed to provide a seamless and optimized shopping experience.
- Built using Next.js, a powerful React framework for server-side rendering and static site generation, ensuring fast performance and improved SEO.
- Styled with TailwindCSS, a utility-first CSS framework for efficient and responsive design.
- Utilized React to create a dynamic and interactive user interface.
- Implemented Redux Toolkit for centralized state management, optimizing performance and data handling.
- Integrated Radix UI components to enhance accessibility and UI customization.
- Deployed on Vercel, ensuring fast load times, seamless updates, and global scalability.

POSify Website

- POSify is a modern multi-tenant Point of Sale SaaS platform built for scalable and secure business operations.
- Developed using Next.js, React, MongoDB, and Tailwind CSS, providing a seamless and responsive user experience.
- Integrated NextAuth.js for secure authentication and Zustand with TanStack Query for efficient state management.
- Supports real-time order processing, offline functionality, and detailed analytics dashboards.
- Deployed on Vercel, ensuring fast performance and global scalability.

WORK EXPERIENCE

Core PHP Developer

MOBIT SOLUTIONS | LAHORE   JULY 2023 - SEP 2024

- Proficiently utilized Core PHP and JAVASCRIPT skills to debug, fix APIs, and implement new functionalities, enhancing web application performance.
- Maintained and optimized MySQL databases, ensuring data integrity and efficient data retrieval.
- Resolved critical issues, contributing to project success and skill development.
- Collaborated with the QA team to identify and resolve reported issues

Stack Web Developer

FIVERR | REMOTE   2023 - PRESENT

- Performed coding, debugging, and unit testing tasks in support of projects. Developed and shipped highly interactive web applications with positive customer reviews.
- Applied current programming standards and methodologies to all relevant projects and activities.
- Upgraded and maintained both the back-end and front-end systems.
- Interacted with Customers and Development teams to fix the Issues and performed System Testing, Regression Testing for Complete UI after fixing the Issues which were reported by the testing team.
- Remained adaptable and committed to staying on top of growing technologies and engineering trends.
- Developed scalable web-based user interfaces and components using React and NextJs.
- Used Object Oriented Programming concepts to develop UI components that could be reused across Web Applications
